However, as it does fulfill the physical science requirement, students will be required to perform basic algebraic computations. Simple equations and scientific notation are a part of the course, although not extensively used. More important is learning the way that science works, and some scientific vocabulary. In return you get a full tour of the universe, and learn about the origins and evolution of its contents.	4	THE STAFF	05/26–07/02/09

Note: EPS/Astronomy C12 is designed for non–science majors; it has no prerequisite coursework. However, as it does fulfill the physical science requirement, students will be required to perform basic algebraic computations. Simple equations and scientific notation are a part of the course, although not extensively used. More important is learning the way that science works, and some scientific vocabulary. In return you get a full tour of the solar system, and learn about the origins and evolution of its contents. Cross–listed with Astronomy C12 section 1 and Letters and Science C70T section 1.

Note: All students who intend to take 190 or for whom 190 is a requirement must take the Engineering 190 Placement Test. The test will be given three times each academic year: a week before Tele–BEARS begins in the fall, a week before Tele–BEARS begins in the spring, and the week before the fall semester begins. The test will not be given at any other time. The results of the test will be used to assign students to designated sections of Engineering 140 or 190. For the specific times and places of the test, see the website at coe.berkeley.edu/ids/techcomm .
