<b>Summer Fees:</b> UC Undergraduate \$1,624.00, UC Graduate \$2,040.00, Visiting \$1,720.00 <b>Note:</b> Astronomy 10 is designed for non–science majors; it has no prerequisite coursework. However, as it does fulfill the physical science requirement, students will be required to perform basic algebraic computations. Simple equations and scientific notation are a part of the course, although not extensively used. More important is learning the way that science works, and some scientific vocabulary. In return you get a full tour of the universe, and learn about the origins and evolution of its contents.

Some of the filmmakers purport to be telling the truth about world history, while others base the films only loosely on historical facts or circumstances. Course objectives are to develop a deeper understanding of recent world history by engaging with and analyzing a range of films. Prior knowledge of world history is not required.
