

12-units rule - sample one

semester	Class	grade	Earned unit	Earned GPA
Spring 2016	COMPSCI 61B, 4 units	D+	4 units	No GPA
Fall 2016	COMPSCI 61B, 4 units (4 units counted towards the 12)	B	No units (earned in 1st attempt)	Term and cumulative GPA earned
Spring 2016	MATH 54, 4 units	D	4 units	No GPA
Fall 2016	MATH 54, 4 units (4 units counted towards the 12)	C+	No units (earned in 1st attempt)	Term and cumulative GPA earned
Spring 2016	PHYSICS 7A, 4 units	F	No units	No GPA
Fall 2016	PHYSICS 7A, 4 units (4 units counted towards the 12)	C-	4 units	Term and cumulative GPA earned
	Student has now repeated 12 units			
Fall 2017	COMPSCI C8, 4 units	F or D	No units	Term and cumulative GPA will account for 4 units of D or F
Fall 2019	COMPSCI C8, 4 units	B	4 units (no units were earned in 1st attempt)	Term and cumulative GPA will account for 4 units of B

The repeat rules were applicable through Fall 2016. By Fall 2016, the student had repeated coursework for a total of 12 units. The student can still repeat the F

earned in Fall 2017, however, the repeat rule cannot be applied and the F will still be counted into the GPA even after a B grade is received in the Fall 2019 semester.

12-units rule - sample two: student who has already repeated 10 units

semester	Class	grade	Earned unit	Earned GPA
Fall 2016	MATH 16A	F	No units	No GPA
Summer 2017	MATH 16A, 3 units (3 units counted towards the 12)	A	3 units	Term and cumulative GPA earned
Summer 2017	CHEM 3A	F	No units	No GPA
Fall 2017	CHEM 3A, 3 units (3 units counted towards the 12)	B	3 units	Term and cumulative GPA earned
Spring 2018	PHYSICS 8A, 4 units	D	4 units earned	No GPA
Fall 2018	PHYSICS 8A	B	No units (earned in 1st attempt)	Term and cumulative GPA earned
	Student has now repeated 10 units. If the student repeats a 2 unit class, the repeat rules will apply. If the student repeats a 3 or more unit class, the rules will not apply and GPA will be earned for all attempts			

Spring 2019	CHEM 3B	F	No units earned	Term and cumulative GPA will account for 3 units of F
Summer 2019	CHEM 3B	B	3 units (no units were earned in 1st attempt)	Term and cumulative GPA will account for 3 units of B

By Fall 2018, the student has repeated 10 units. Any class of 3 or more units repeated after Fall 2018 will trigger the application of the 12-unit rule: classes may still be repeated, but both classes will count in the term and cumulative GPA.
